CAREER SUMMARY

Computer Science graduate with strong academic and practical background in Artificial Intelligence, speech recognition, and software development. Experienced in Python-based AI projects, algorithm design, and full-stack web development. Demonstrated research capability through development of an AI-driven Quran recitation analysis system. Motivated to further develop expertise in intelligent systems, data processing, and modern software technologies.

EDUCATION

BS COMPUTER SCIENCE

UET MARDAN

CGPA: 3.49 / 4.0

10/2021 – 10/2025

MARDAN

Fsc Computer science

Iqra College Jehangira

Marks: 990/1100

2018 – 2021

Jehangira

RELEVANT COURSEWORK

Artificial Intelligence

Data Structures & Algorithms

Object-Oriented Programming

Database Systems

Software Engineering

Operating Systems

Programming Fundamentals

EXPERIENCES

Web Development Intern

AI4LYF

10/2025 – 12/2025

Remote

- Developing scalable web applications using Next.js. Built a chatbot automation system using n8n. Collaborating with developers for UI and API integration.

Frontend Developer Intern

Apexcify Technologies

08/2025 – 09/2025

remote

- Developed responsive websites using HTML, CSS, and JavaScript.
- Improved UI/UX and optimized performance.

Frontend Developer Intern

Developershuh

07/2025 – 09/2025

remote

- Assisted in developing and debugging frontend features.
- Enhanced website responsiveness and performance.

PHP Intern

AICP

07/2024 – 09/2024

Remote

- Developed and maintained 9+ PHP/MySQL websites.
- Built database-driven systems and user-friendly layouts.
- Worked with teams using Git and agile methodologies.

RESEARCH & ACADEMIC PROJECTS

Hifz Master - AI-Based Quran Recitation Correction System

Final Year / Major Academic Project

- GitHub: <https://github.com/Mustafashafi/Hifz-Master>
- Designed and developed an AI-based system to analyze Quran recitation accuracy.
- Implemented speech recognition models (Vosk, Whisper) using Python.
- Developed word-by-word comparison algorithms to detect recitation errors against Quranic text.

- Focused on correctness detection rather than Tajweed rules.
- Proposed scalable improvements for real-time recitation monitoring and feedback.
- Strengthened research skills in speech processing, AI pipelines, and algorithm optimization.

Library Management System (Web)

- Developed a PHP & MySQL-based web application for book and user management.
- Implemented full CRUD functionality, database design, and user-friendly interfaces. GitHub:

<https://github.com/Mustafashafi/Library-Managemnt-system.git>

Library Management System (C++)

- Console-based application demonstrating Object-Oriented Programming (OOP) concepts.
- Implemented structured programming, data handling, and menu-driven logic. GitHub:

https://github.com/Mustafashafi/library_project_C-.git

Portfolio Website (React.js)

- Built a dynamic personal portfolio using React.js to showcase projects and skills.
- Implemented reusable components and responsive layouts. Live Site: <https://mustafa-portfolio32.netlify.app/>

GitHub: <https://github.com/Mustafashafi/portfolio-website-practice-using-react.js.git>

Personal Portfolio (HTML, CSS, JavaScript)

- Designed a responsive static portfolio website focusing on UI/UX and layout design.
- Showcases personal profile, skills, and projects. Live Site: <https://mustafashafi.github.io/portfolio-website/>

GitHub: <https://github.com/Mustafashafi/portfolio-website.git>

AI4LYF Website

- Developed scalable frontend components using Next.js.
- Focused on clean UI design, responsiveness, and performance optimization. Live Site: <https://next-design-topaz.vercel.app/>

Mobile App UI Design (Figma)

- Designed modern and user-friendly mobile app interfaces using Figma.
- Emphasized usability, visual consistency, and clean design principles. Figma Design:

<https://www.figma.com/design/VirorjJNdbCI23uYiHQYTR/AI4LYF-APP-SCREENS>

RESEARCH INTERESTS

Artificial Intelligence | Speech Recognition | Machine Learning | Intelligent Systems

SKILLS

Web Development

HTML5, CSS3, JavaScript, PHP, MySQL, React.js (Basic), Next.js (Basic)

Tools

Git, VS Code, XAMPP, MS Office, Figma

AI & ML Basics

Speech Recognition (Vosk, Whisper), Python

Languages

English (Good), Urdu (Native)

Programming

Python, C++, OOP, Algorithms

LANGUAGES

Urdu

Good

English

Good

CERTIFICATES

- - React and Redux Certification Test YouTube Course

- - Become a Python Master (Professional Certificate from Programiz)

- - JavaScript (JS) Course - Learn JS Mobile App
